The screenshot shows a window titled "TFP for 2020" with a menu bar containing "File", "Payers & Recipients", "Tax Forms", "Print Forms", "E-File", "Reports", "Utilities", and "Help". Below the menu bar is a dialog box titled "TFP for 2020 Product Key". The dialog box has a close button (X) in the top right corner. The main heading is "Install Product Key". Below this, it says "Enter your Software Product Key in order to unlock the features in your software." There are two input fields: "Enter Email Address:" and "Enter Product Key:". Below the email field, it says "Email address is required to communicate software updates and IRS compliance changes." Below the product key field, it says "Enter Product Key: (Please enter the product key provided without spaces.)". There is an "OK" button to the right of the product key field. At the bottom, there are two lines of red text: "Notes: Product key can be found on the CD or the CD Sleeve." and "If you do not have an email address, you can create one for free on sites like gmail.com, yahoo.com and aol.com". Below this, it says "Lost your Product Key?" and "Email support@custsupp.com".

Once you enter this information, your software is ready to use! NOTE: if the application pauses during installation, that's just the software updating itself, give it time to pull the latest updates for you.

NOTES:

Some Product Downloads will give an error when entering your key, this means it needs an update. You will need to let the software sit at the screen where you enter the key; this may take 15-30 minutes or more for the update to automatically kick in. Once you perform this update, the key will start working.

You may receive a shipping confirmation notice; please disregard as downloads are not shipped.
