Below the heading, it says "Enter your Software Product Key in order to unlock the features in your software." There are two input fields: "Enter Email Address:" and "Enter Product Key:". Below the email field, it says "Email address is required to communicate software updates and IRS compliance changes." At the bottom, there are notes: "Notes: Product key can be found on the CD or the CD Sleeve." and "If you do not have an email address, you can create one for free on sites like gmail.com, yahoo.com and aol.com". At the very bottom, it says "Lost your Product Key? Email support@custsupp.com".

### **NOTES:**

Some Product Downloads will give an error when entering your key, this means it needs an update. You will need to let the software sit at the screen where you enter the key; this may take 15-30 minutes or more for the update to automatically kick in. Once you perform this update, the key will start working.

**You may receive a shipping confirmation notice; please disregard as downloads are not shipped.**
